Overview of Lab 04

Keep progressing your Critical Proposals

- Get your Target Paper checked by your Lab Tutor Is it still the best you can do?
- Have a look at the sample Critical Proposal in the Coursework Information section of the VLE.
- It got a first, but there was plenty of room for improvement.
- Last year the Effect Size information and Design Schematic were not required. This year, they ARE COMPULSORY.

If you are happy with your Critical Proposal

- You can use the lab time to continue refining your research ideas.
- Start identifying and documenting your IVs and DVs. Maybe even your design!

Your Design

How much of the Design of your study is known at this point?

Everything I will need to know about my study Andy Student (33412345)
